

TMBR-S1801C

Single head embroidery machine

Debut!

It is Tajima's first-ever 18 color machine in the market.
18 color TMBR series with DCP is released!

Fashioning your Future Tajima always leads, never follows

Features

Variety of expression in 18 colors.

18 color embroidery gives you a wide range of expression by color graduation and thread combination.

The new "Picker free" trimming system

The new improved "Picker Free" ATH system is able to stabilize trimming and enhance production efficiency. Besides that, it is much easier to replace a bobbin without the picker in the way.

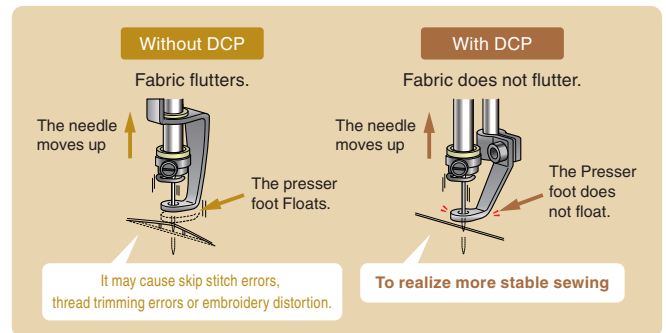

Frequently exchanging thread cones causes production loss.

Frequently changing thread cones on a single head embroidery machine due to continuous design changing takes time. Reduce the number of thread replacements by having 18 color possibilities in advance.

DCP -Digitally Controlled Presser Foot-

The height of the presser foot can be randomly set according to the material thickness on the operation panel. The fabric does not flutter even when using hard-to-embroider materials like leather, thick fabric, stretchy fabric and quilting.

■ Example: "Fluttering" difference using thick leather

"Fluttering" occurs when the material is lifted up during embroidery which causes skipped stitches, miss-trimming, and reduced quality stitching.

View by video clip.

● Specifications

Needles	6, 12, 15, 18
Factory options	Sequin Device IV, Lochrose Embroidery Device, Signal Tower, Position Marker, LED Lamp, Air Type Clamp Frame 2, Air Type Pocket Frame 2
Options	Multi-cording Device, Emb. Lamé Attachment, Stand, Stand Tray, Border Frame, X-Extension Frame, Cap Frame 2, Pocket Frame, Snarl-preventive Attachment, M-Frame
Speed	Max. 1,200rpm
Electricity	Single-phase 100-120V, 200-240V, 50Hz/60Hz
Power consumption	160W
Weight	95kg
